

LIVING DIVANI AT ZOUTE RALLY

Knokke-Le-Zoute - Belgium

10 - 12 October 2013

Living Divani, a reference point in the furniture design scene, is taking part in Zoute Rally, the exclusive classic car event to be held in Flanders from 10 to 12 October 2013.

Participating in the rally will be 160 vehicles built between 1920 and 1965, competing on a route laid out along the picturesque Belgian country roads, starting and finishing in Knokke-Le-Zoute.

The main sponsor of the event is RR Interieur Concepts, a client of Living Divani, who will be working in partnership with the retailer to furnish the VIP lounge with its products, ready to welcome the drivers and co-drivers.

The space will be enhanced with the measured elegance of Francesco Rota's **Hinge stools**, with their slender metal structure supporting a gently curved upholstered seat; Arik Levy's rectangular **Wedge** table claims its space with a strong but not overbearing presence, and with simplicity it offers a set of sculptural symmetries, ideal to balance out the snug, rounded lines of the **Confident** easy chair, designed by Piero Lissoni, the company's art director.

The playful dynamism of Nathan Yong's **Bolle**, proposed here as a black table or a stool in a range of different colours, brings its distinct personality that will add instant charisma to any setting, while the space is completed with the pure lines of the modular sofa **Extrasoft**, comprising snug, cosy seats, joined together to make up regular geometrical forms.

This collaboration reaffirms the dynamism and versatility of Living Divani and its products, which fit seamlessly into the widest range of different settings, thanks to the vast selection of finishes, the carefully crafted technological details and the highly practical design content.
