

Living Divani @ 3daysofdesign 2021 with Fiorini Trading

Living Divani takes part in 3daysofdesign 2021, the annual event that, from September 16th to 18th, brings together architects, designers and design enthusiasts from all over the world in Copenhagen, to experience new lifestyles as well as to learn about the novelties proposed by the main players in the Danish design scene. For this occasion, in fact, Fiorini Trading showroom presents a wide and representative selection of the Living Divani's novelties 2021. First of all the Sumo family, here proposed in the sofa variant featuring a straight base and a reclining backrest, together with the bench: a skilful mix of refined fabrics, charming finishings, in a world of tactile suggestions where tailoring is the real protagonist. The Lemni armchair by Marco Lavit offers then an unexpected refuge of refinement that captures for its light aesthetic. Suspended seat in saddle leather, balanced on a metal structure in black painted tubular steel, it traces a design in the air welcoming also the backrest roll cushion. Finally, the Moon project by Mist-o is resumed and expanded to experiment new expressive and use possibilities. Its pure shape in curved wood, which opens like a chest to reveal storage spaces, is proposed in 3 new variants: Moon Eclipse is a double volume that combines a low and wide cylinder, which acts as a perfect tabletop, with a satellite container that can be opened, on one side only, and equipped with a swivel and removable insert, designed for storing bottles and glasses. Moon Satellite is a taller multifunctional container on wheels, which can be used as a bedside table, coffee table or portable desk drawer. It is divided in a lower compartment ideal for storing books and magazines, and an upper compartment that can be used as a pocket emptier and accessory holder. Finally Full Moon, a low and wide volume, with an upper hinged opening which, thanks to a swivel and extractable insert, offers an extremely capacious hidden storage space organized on different levels.
